

# UNIVERSAL 4 CHANNEL ACRE COUNTER

## DISPLAY FEATURES

- ◆ Used on any piece of field equipment with any shaft or wheel diameter.
- ◆ Acres are counted as soon as the equipment moves and one touch of a button lets you view the acre totals.
- ◆ 4-Channel Design allows up to 4 sections for accurate acre counts on point rows.
- ◆ Rugged and reliable.
- ◆ An economical way to calculate and measure field and total acres.
- ◆ Battery operated so there is no need for a power cable.

The New **Loupe Acre Counter** provides an Accurate, Cost-Effective solution to count acres on any equipment through the use of a ground driven shaft.
